Bring your family for a vacation!
Family Cabins available!

Osu!

Once again, it gives me great pleasure to invite all traditional karate-ka, regardless of organization affiliation, to attend our 2017 IKD World Camp at Camp White Pine, in Haliburton, Ontario, Canada.

Only two hours from IKD HQ in Toronto, the camp is a secluded location that is perfect for a retreat — close to the big city, yet far away from the hustle and bustle of urban life and stress. Think of it as an affordable holiday with clean accommodations, three full meals daily, fun events, and the opportunity to train.

Unlike other camps, you are most welcome to bring your family for a vacation while you train!

For our overseas guests, perhaps spend a week — three days of camp, and the rest of your trip experiencing exciting Toronto.

Train your choice of **two** or **three*** times daily in one of six dojo(s) based on your rank with the best of the best Master Instructors of the IKD World. ***10:30 AM seminars are optional.**

All IKD Masters have received their training from the Great Master, Masatoshi Nakayama, 10th Dan, as well as many of the other legendary JKA Masters, namely: Nishiyama, Okazaki, Mikami, Yaguchi, Takashina, Koyama, Enoda, Asai, Ochi, Tanaka, Osaka and many others.

Senior Members of the IKD Shihan-Kai in Judge's Uniform

- 2012 – Adoption of the IKD Kyu and Dan Examination Syllabus.
- 2013 – Adoption of IKD Passports and the Instructor Training Programme.
- 2014 – A New Method of Teaching, Kihon, Kumite, Team Kata, Bunkai and Enbu.
- 2015 – General Membership participation and discussion of the new IKD Tournament Rules.
- 2016 – Introduction of Oyo and Traditional Weapons.
- 2017 – The Science of IKD Karate.

The Science of IKD Karate

This year's theme will feature two top research experts: Sensei Alain Dumas, 6th Dan of Quebec, and Sensei Marc Boismenu, 6th Dan of Toronto. Both are certified IKD Instructors. I was so impressed with their Sixth Dan examination dissertation that I asked them to share it with campers:

Sensei Dumas will conduct his **Enbusen Seminar** on **Saturday** from **10:30am to 11:30am**.

Sensei Alain Dumas: Sensei Dumas was born in Saint-Jean-de-Matha, Quebec, in July of 1959. He began his karate training in 1977, and attended College Montmorency in Laval, graduating to become an Architecture Technician for the Saint-Jerome School Board. Now retired with three children and five grandchildren, he performed intensive and time-consuming work researching “kata enbusen”, a project which I am sure you will find very interesting. His research includes kata: Heian Shodan to Heian Godan, Tekki Shodan to Tekki Sandan, Bassai Dai, Kanku Dai, Jutte, Hangetsu, Enpi, Gankaku, Jion, Nijushiho and Kanku Sho.

Sensei Boismenu's seminar is on Traditional Karate in a Modern World: **“Principles of Physics in Karate.”** This seminar will take place on **Sunday** from **10:30am to 11:30am**.

Sensei Marc Boismenu: Sensei Boismenu, P.Eng., MSSM, began karate in 1986 with Master Mori, 9th Dan, JKA. He attained his First to Sixth Dan with Masters Okazaki and Woon-A-Tai, and currently continues to study the art and science of karate. He obtained his BSc in Chemical engineering at McGill University, and his Masters in Strategic Management from Indiana University. Marc worked at General Motors in Quebec where he held various positions in manufacturing and engineering before transferring to the Canadian Technical Center in Oshawa. He held the position of R&D program manager, created the Science Office of GM Canada, and grew a portfolio of research with academic institutions across Canada, and in federal laboratories to advance scientific learning in many automotive technologies. Today, Marc is responsible for the portfolio of advanced development work in Computer Aided Engineering for GM around the globe.

Both seminars are optional, and will require gis.

Further, examinees for Examiner qualification must be prepared to answer questions pertaining to the main development points of random kyu and dan levels. For example, the main development point for the sixth kyu level is competency in arm and hip rotation or for shodan, mastery of the basic techniques and the ability to use them effectively.
